“ My best friend for life you are not forgotten. The legacy you left here on earth touched us all. I cry for you every day I miss you every day. But then I remember where you are. Oh Tony you made it! You got the golden ticket brother. I am so happy that you are happy! Thank you God for letting you come and say goodbye to me for the last time. I know you said quotation mark "it's ok" As you touched me. I will never forget that opportunity to hear your voice and feel your strength as a new Tony and Tony that wasn't hurt by this earth. Your soul and voice so strong. No more disability no more things holding you back on earth. You have been my strength you prayed for me in my darkest of times. We have been each other's strength. And now from heaven your powerful you the new you has shown me you are happy you are OK! Now you are free from the things that broke your heart and body down. I could not be more happy for you. When you came to say goodbye feeling your joy will bring me a lifetime of happiness. I love you so much Tony. I am so thankful that God gave me this opportunity to hear you from heaven say goodbye. The last two days that I saw you before you went to heaven you had a glow about you! Literally God's hand was upon you and you were so innocent. And now you are free. And you are strong. And you are happy. And that makes me happy! I pray for God's strength to be without you here on earth. I have joy and peace because you are with our father. Oh dear lord take the pains and repair my broken heart. I know Tony is with you Lord and because he is happy I am happy. I will always miss you Pooh bear- I will always miss you...I love you Tony.
