

Andrew "Andy" Wolfe Jr.

March 22, 1929 - March 20, 2015

Andy passed away Friday, March 20, 2015 at age 85 after a long and courageous fight against cancer.

He is survived by his wife, Patti Johnson; sons Andy (Debra), John (Kate), and Hugh Wolfe; 11 grand children and numerous great grand children; 2 nephews, and all of their families.

Andy was born in Fort Collins on March 22, 1929 to Pauline K Wolfe and Andrew Wolfe. He graduated from CSU and attended Michigan State University. His service in the US Air Force during the Korean War took him to South Dakota. During his career in the National Park Service he lived and worked for many Parks and Monuments, as well as, Washington DC and San Francisco.

Andy loved camping and hiking with Patti in the National Park areas. Their travels always revolved around being out in nature – watching for wildlife and birds, enjoying the beauty of nature. Their favorite vacations were in Hawaii and Nova Scotia. Andy loved his dog Cole – walking him and just hanging out with him. The times he spent fly fishing with his family were especially meaningful to him. His yard and gardening were a place of relaxation and joy. He could always find another perennial that was needed in the yard! Adventure stories and mysteries were his favorite reads. Spending time at the

coffee shop with friends brought him great pleasure and interesting conversation.

Andy was a compassionate, loving and accepting man. He embraced life and encouraged others in their endeavors and challenges.

Cremation has taken place. A celebration of his life will take place later.

In lieu of flowers, contributions may be made to The Nature Conservancy in Colorado, 2424 Spruce Street, Boulder, CO 80302.

“ A "Jr" just like my dad ! I didnt know that. No wonder they were such great friends. They shared the love of nature and travel (scarry jeep trips) and solitude. I always enjoyed being around this sweet gentle man. Last time I saw him at Dads house (T Hewitt) he was doing road trips in his camper, staying active and being as positive as possible with his on going fight with illness. Always a positive smile. always full of life and love of the great outdoors and full of wonderful knowledge of nature. He will be missed. Hugs to the family !

“ *Andy fought a long hard battle and we will always admire the courage and strength that he had. He was an interesting man to talk to and he was compassionate. We had a lot of long conversations and a lot of good laughs together. We are so glad that all of us were able to get together this past December to celebrate Christmas. Andy was so happy and the pictures we have of him with Kayla, Logan and Danika are special. We are glad that Andy was a part of our family and we will miss him very much.*

Greg, Bobbie, Jason, Kelly, Kayla, Logan, Brian, Ashlee, Kristy and Danika
