“ *Well I am deeply saddened to see the passing of my friend Robbin's Mother.*

I didn't know Betty extremely well but I did meet her several times and actually spoke to her just a few days before her death. I had called Betty last March 2012 asking for Robbin's number and birth date since I had planned to surprise Robbin with an "out of the blue" Birthday call (unfortunately I began a new job shortly thereafter and didn't call Robbin).

I know how much Robbin loved her parents and here it is August 12, 2012, months after her Mother's death and I just NOW found this out as I was researching old friends and their parents.

I hope that Betty's children (especially Robbin & Karre Rene) accept my late condolences. My heart truly goes out to you.
