“ *It's appropriate that Brian's image on this page is one taken during his time in the U. S. Navy. It was during that period that he discovered personal discipline, purpose, and that he possessed a mind that was full of energy and creativity. But a darkness lately fell on him that was too heavy for him to lift. May he rest now, free from the pain of recent years, in God's healing hand.*

*Mr Sauls I am sorry to learn of the loss of your son. I served in the US Navy with him and was the young man who performed CPR on your grandchild for the last 45 minutes of his sweet, young life. Know my prayers are with you, sir.*

*Michael, if you happen to see this, please know how much I appreciate your efforts to save Michael Anthony. I don't think Brian ever psychologically recovered from that trauma. He cited it often in the extensive journals he kept, even until the very day he took his own life. I live in Chapel Hill, N. C. My email address is roger\_165@msn.com. Contact me if you ever feel like it.*
