

Charlott Myers

November 13, 1932 - April 27, 2008

Charlott Myers, 75 of Fort Collins, Colorado, died April 27, 2008 at the Hospice Care Center in Loveland. She is to be buried privately alongside of her late husband, Gordon Myers, in Roselawn Cemetery in Fort Collins. A gathering in celebration of her life will be held from 5-7 PM Friday, May 9th, 2008 at the Ft. Collins Senior Center. Charlott Havemann was born November 13, 1932 in Hamburg, Germany to Carl and Erna Havemann. When she was 18, she left for the United States and settled in New York. She proudly obtained her citizenship in this country. She lived in San Francisco where she met her husband, Dr. Gordon Myers. She assisted him in doing research work among the coastal Indians of British Columbia and they lived for a time in Vancouver, BC. The couple moved to Story, Wyoming, which is near Sheridan where her husband was a professor at Sheridan College. While in Story, Charlott developed an interest in the Basque culture and the many people of Basque heritage living in Wyoming and she wrote a great deal about these fine people. After her husband's death and in his honor she set up a scholarship fund at the University of Wyoming to assist Wyoming students wishing to study medicine. She loved art as well as classical music and her life was spent in search of knowledge that included receiving a degree from Sheridan College. She worked assisting her husband for many years as a Medical Technician. She will always be remembered by her many friends for her courage, and her ability to give other people a lift in their lives. Upon retirement, she took up quilting and writing and volunteering (hundred's of

hours) for Poudre Valley Hospital and the Fort Collins Public Library. She spent much of her time with her writers group through the Ft. Collins Senior Center and also enjoyed regular aerobic exercise and socializing with the ladies there. She is survived by her brother, Dietrich Havemann in Germany and numerous friends throughout the world.

“ *I graduated from the SC Dental Hygiene program, but later returned as a faculty member with the program for 18 years. Dr. Myers and Charlotte were 2 outstanding individuals and a great couple. They frequently hosted the DH faculty at their home where we enjoyed great food, hospitality, Charlotte's great handiwork, and Dr. Myer's trains. Charlotte and I both suffered with Scerladerma, so often visited about this affliction. It was a very sad day when he left the program and again when they moved. I hold them up as specials friends I have had through the years. It sounds like she gave her time to others after she lost Dr. Myers. She will be missed by many, I'm sorry to see them go. Best wished to the family, I am sure you have wished you could have been closer together.*

“ *Charlott and Gordon Myers were my volunteers in the Local History Archive of the Library. Gordon scanned historical photographs for our online web site and Charlott typed city directories, oral histories, and special collections inventories to put online. What a remarkable couple! Charlott had a beautiful love of life and I treasure the exquisite quilt that she made for me. She gave me copies of her memoirs to place in the archive after her death which I will do. The story of her life is a testament to the courageous individual that she was. I will miss her!*

*With deepest sympathy to her family,
Rheba Massey*

“ *Charlotte was a warm and generous lady. I always enjoyed her ready laugh and perpetual smile.*

Both Gordon and Charlotte helped make Sheridan College a better institution, and it was Charlotte who kept Gordon strong and dedicated. Her ease with people, her knowledge, her love of life made an impression on me.

I'm so sorry she's gone, but I'm glad to have known Charlotte. My best to her family.

“ I met Charlott 37 years ago when I was a Dental Hygiene student at Sheridan College. Charlott was a wonderful support for her husband, our director, and had an open heart and home for the students.

I had the priviledge of working with Dr. Gordon Meyers for 18 years. In that time I got to know Charlott better. She was such an interesting woman. We talked about quilting, books, history, culture. Her German heritage and adventurous spirit, her curiosity and love for learning have been an inspiration to me.

I have spoken many times about how blessed I was to have Gordon and Charlott as mentors, as I started my Dental Hygiene career. I learned so much from them about teaching and learning, fairness and integrity. They both had a sense of humor which makes me smile as I write this.

I would love to read some of Charlott's stories. I would appreciate learning how to locate them.

After Charlott and Gordon moved to Fort Collins, I visited them every few years. It was always a warm welcome, like family. She has a warm place in my heart, as a woman to model my life after.

“ We, especially Gary, had the privilege of meeting and chatting often with Charlott during our morning exercise classes. She was such a delightful, upbeat, person to talk with. After discussing her writer's group project, we bought the collection of essays - including her story of the Lotus. What a privilege also tonight to see all the original quilting pieces, and the many well-done binders with stories of her life and interests years ago. She is an inspiration to Gary who would like to be as creative with family history. Our thanks to Charlott for giving us a chance to enjoy her love of life.
