“ *Estella was my first cousin, She grew up in the country three miles from where I grew up. I have tried in the past several years to find out anything about her to no success. She was a sweetheart. In earlier years she came to Sundance every Memorial Day and we would have lunch. Growing up we spent time at her house in Newcastle, when Barry was very small. God bless and keep you, Estella!! Love you.*

“ *Estella was like a second mother to me. I treasure the times I spent in her tiny kitchen, while she taught me to make her famous chocolate cream pie and outrageously crunchy fried chicken. She was so patient with me, a total non-cook. She welcomed me into the family and into her beautiful, loving heart. I'll miss her!*

“ Estella was one of those beautiful ladies who just lit up the room when she smiled...she treated all of her children's friends, like me, as just another one of the clan...she always made us feel welcome...will never forget the time when she came home from work one evening a group of us were hanging around...she immediately asked if we were hungry, we all said yes, and within a matter of about twenty minutes or so, she had what I considered to be a feast laid out for us...I am still amazed at how she managed to pull that one off...she was a wonderful lady and will be missed...my thoughts are with all the members of her family and her friends...

“ I am so sorry to hear of Estella's passing. She was the most kind hearted person one could meet. She took my mom, my sister and I in when our dad was in the hospital the summer of 1991. She always made the best salads for dinner, watched my sister and I in the afternoons when my mom would go to visit my dad, and just had the biggest heart! Not many people would just take a whole family in for a summer! She also had a wonderful laugh! Prayers for Estella and the family!

“ *Estella was one of the nicest, kindest ladies I've ever known. She and Jimmy let us stay with them June, July and August of 1991 while my husband Bill was in the hospital. They housed us, fed us and cared for us. I've always been grateful to know her .and her family.*

*She loved doing the puzzles in the paper every day. I still make Bonnie her strawberry pie for her birthday, something your mother taught me. I also make her fruit salad. She was an optimist. Her flowers were so pretty. She was an angel on earth, I will never forget her!*
