

Hal Saiger

September 3, 2022

Hal Saiger, age 89, passed away peacefully in his home on Saturday, September 3rd, 2022. His last moments were spent in comfort, with his family by his side. In life, Hal had a great passion for people, which unquestionably drove him on from his first moment to his last.

As a young man, he served his country with distinction in the Navy during the Korean Conflict, only to come home where he continued to help others during a long and successful career in sales. Hal was a paragon in his field for nearly 57 years, earning himself a prestigious reputation, not only as a leading representative for places such as American Metal and Home Depot, but as a trusted friend to his community, who put people ahead of profits. He even devoted much of his free time to working with children in the California Rangers, a non-profit equestrian organization.

Hal had a story for every occasion and a smile that rarely wavered. Though above all else, he was a devoted husband and loving father. Hal is survived by his wife of 50 years, his four children, 7 grandchildren, 11 great-grandchildren, and 1 great-great-grandchild. There will be no official service, though Hal's family would urge you to take a moment and remember him as the kind and selfless person that he was.

“ *Hal was the husband of one of my long time best friends. He was kind, generous and unselfish. He was the poster child of a devoted husband and father. He will be remembered by all who knew him for his keen sense of humor and generosity. We will all miss him dearly.*

“ *We utilized the neighborly "hi, good to see you" wave a lot with Daisy and Hal through the years. When we were out washing our car or weeding the garden, Hal liked to tease us that when we were done at our house we could come over and do the same thing at their house. It was always good to see Hal sitting outside keeping watch over the neighborhood. Hal enjoyed watching the tree trimming in our yard this summer and he applauded as the branches fall which made a necessary activity entertaining. The neighborhood is lonelier without Hal but his life made a positive impact on our hearts and we will always fondly remember every encounter with our neighbor who became our friend and made our little corner of the world a better place.*

“ How do you measure a life? I met Hal in the appliance department in Homedepot. Most of our history began there, jokes and family talk, My main stop was the appliances department at the south Home depot , where he and I would sometimes chat way longer than I should have stayed. He invited me to his home, where I met the lovely Dasie. He would talk about the Queen of his life?. Never a bad word. For a guy who lives by a measuring tape there no tape long enough! I'm always happy I shared his time. A good man. I read a small section in the Holy bible Matthews 5 14-16 He made me feel happy. I will always be glad he was part of my life.

“ All our condolences to Hal and his family. I remember him well when I was a young girl, he and my Aunt Daisy would take Dale and I every week to ride horses with the California Rangers. We drive in his Javilin car. It wasn't very big inside but it was sporty. Many fun memories throughout that period of time with them. Im sure he will be missed by all. My love to all of you.

I've had the privilege of knowing Daisy and Hal for over 20 years. How I will remember Hal was his dedication to Daisy, helping her at the many doll shows over the years. At these shows he always interacted with the viewers and customers with sincere interest. Sincere condolences to Daisy and family. Thinking of you. Nancy BC
