“ Mr. Mattis was my basketball coach for 5-8 grade travel in town. I have fond memories of travelling in the Frito Lay truck and the station wagon to games that my parents couldn't make due to other family sport commitments and I was lucky enough to have a ride by John. In my opinion he was responsible for the development of many of the players who went up through the ranks and competed for the boys East Longmeadow High School varsity basketball team in the late 1970's and the accomplishments we had. Sometimes the legacy a person leaves behind is not always immediate but can bear fruit generations down the line. Although I played basketball in High School and in College, the fruits of John can be seen through all the years of coaching that I did and his influence on me affected my step son and daughter who each played 4 years of Varsity basketball in High School, and one who received a college scholarship to play basketball in college. Also in 7 years of recruiting, coaching, etc in AAU girls basketball over \$1,000,000 worth of basketball scholarships were awarded to girls I helped coach, with most of the knowledge that was instilled in me by John. Although I have run into Wendy in town on occasion I would also like to say hi to Jeff and that my prayers are with the family.

“ I'm very sorry to hear of Jack's passing. He was the first person to welcome my family to the neighborhood five years ago. It really confirmed for us that we had moved to the right place. He always had something kind and funny to say when I'd be out working in the yard or happened to be within earshot of the mailbox. I've missed seeing him en route during his illness and I am sure I am not alone in that.
