“ *Kathie and I worked together for several years at Hewlett-Packard when she was doing disability case management. She had a great sense of humor and we enjoyed laughs together on many occasions. She was very good at her trade and I appreciated her competency. Following my retirement we lunched together a number of times. The world is a lesser place for her passing.*

“ Sorry to see Kathy's passing. I spent quite a few smoke breaks outside of HP/Agilent/Avago talking to her. After she left Avago I unknowingly learned that she was a good friend to my mom. Helping out at St. Joseph's church, giving out communion and driving my mom to and from many functions. What a small world. She'll be dearly missed.

“ Kathy and I worked together years ago in two different counties in public health. We had similar positions and shared some stories about those experiences that were funny and enriching about human behavior. I ran in to her periodically after that time and enjoyed her positive perspective on life. I will miss her.

I extend my deepest sympathy to her family

“ *If I listen real hard, I can still hear Kathy's laugh and I will never forget her stories. I only wish I could still hear her advice. Rarely do you find a co-worker that is not only a mentor but a dear friend. Sending deepest sympathy and heartfelt thoughts to Kathy's family and friends.*

RIP Kathy, May your heart and soul find peace and comfort.
