“ *Nevart and I want to send our sincerest condolences to Kay, Lori, Ken, Kathy and the grandkids. As a young engineer on my first construction project, I had the good fortune to work with/for Loris in Wenatchee from 1974 - 1978. I have always said that experience was the foundation for a long career, and Loris was a great mentor. With Kay, they were like a big brother and big sister to us, providing guidance, advice and support to a newly wed couple 3,000 miles from family, even sharing Lori Andy Kathy to babysit when our son was born. Loris and Kay both have a special place in our hearts.*
