“ *I don't know of a particular memory of my Aunt Lovera. she was my moms sister and when I first remember her she was in high school and she and her sister played the piano and I thought she was very pretty. after she married Allen we would take G and G shumway to visit her in Salina then on to Russell where they lived in several residences and built and sold several houses. they then moved on to several different places in Colorado but I never got to visit those. We as families got together with other relatives for Christmas and at picnics in the summer. So even though there was distance we always kept in touch. Age and distance played a part in that not happening however. Lovera was named after her two Grandmothers Lovera Leroux and Helen Shumway. She will always remain in my heart.*
