“ I met Margarita as we called her at a boarding house I'm Mexico City in 1959 and Rafael would come in his old car which he called Rosinante because he had trouble getting it to run In 1968 my children and I went to visit friends in Mexico City and we went to visit Margarita and her two children in the Pedregal area of Mexico City. The girls my daughter and hers played dolls and my son and hers played with trains She did a load of wash which required that the clothes be put in a separate compartment to spin between washing and rinsing and the plumber couldn't understand why she wanted hot water in the kitchen! The other washing machines advertised on TV were wringer styles. Later in the week Margarita drove us to the pyramids at San Juan Teotihuacan I always thought to write but time got away. She was an energetic joyful person fun to be with and I will miss her. Sally Cash Richmond Ca
