

Matthew Richard Moeller

October 13, 1953 - August 24, 2015

Matthew (Matt) R. Moeller, age 61, passed away on August 24, 2015. He was born in Ft. Collins in 1953. He was a veteran of the United States Navy and recently retired from Colorado State University, where he worked as an Information Technology Specialist. Matt was a devoted father to his beloved daughters and caregiver for his mother. Matt was a lover of science, nature and all kinds of gadgets. He enjoyed fixing things and was a resourceful problem solver. He also worked on behalf of neglected animals and was a pet lover. He was an amateur astronomer and worked as a volunteer naturalist for Larimer County Parks where he was able to share his knowledge and interest in nature with others.

He leaves behind his mother, Virginia Finley, daughters, Jennifer Perks & Alyson Moeller, sister & brother-in-law Karin & John Jones, brother & sister-in-law Mike & Renee Moeller, nieces, Emily & Madison Moeller, nephews Brady & Shaun Jones, numerous cousins and close friends.

A memorial service is planned to scatter his remains in the mountains that he so loved on Saturday, September 5, 2015.

“ *Just found out today and I have no words. I'm shocked and heartbroken. My heart goes out to his family. I met Matt in 2001 when I started working for CSU. There are so many memories... After I left CSU Matt and I stayed in close contact; often having lunch at the Farmer's Table. He was such a gentleman, he refused to let me pay for myself. After I moved to Greeley we weren't able to stay in touch as often. He had been on my mind a lot recently so just yesterday I texted him to see how he was. Today, out of the blue, another mutual co-worker, whom I had not heard from in years, texted me to tell me Matt had passed. Again, my deepest condolences to his family. Matt was so many things. Loyal, honorable, a confidant, a rock. He was silent, soft spoken, patient, gentle and yet he managed to touch so many of his friends like a category 5 hurricane. Words cannot express how much I will miss him.*

“ I had the privilege to work with Matt for his last year and a half at CSU. He was incredibly smart and very funny. I enjoyed having him in our Fire Alarm Networking group. Unfortunately we just found out yesterday about this tragedy and wish we would have been able to pay our respects in person. If any of his family is able to contact me I would really like to send our condolences. He will be greatly missed.”

“ I knew Matt for several years. He was one of my best friends and just a wonderful man. It is impossible to put in to words how much he will be missed and what a hole he left in our lives. We went to dinner every week and would email or text most days. We would take Virginia, the dogs, and sometimes my grandson on drives and picnics in the mountains looking for moose.

He loved Rusty so much and was fixing up the motor home so they could go camping. He was such a good caregiver to his mother and always had a hug and big smile for his friends.

I will always remember the holiday dinners and bbq's he would join my friends and family for. He knew so much about the parks and wildlife. It was always an adventure when he brought along the spotting scope.

My condolences to his mother and family. He was irreplaceable and loved so much.

“ I was a very good friend of Matt's for several years. We would go out to dinner once a week and email or text most days. He was such a wonderful man. Words cannot express how much he will be missed. We took his mother Virginia to dinner and on rides in the mountains. He loved the mountains and picnics and helping me locate moose in the wild. Matt attended many holiday functions with my family and friends. He had just retired and was hoping to get the motor home ready to go for some relaxing trips once he got moved. He loved Rusty so much.. My deepest condolences to his family and friends.

“ To Matt's family and Hannah and Rusty, I'm very sorry.

I worked with Matt for about 20 years. We were good friends for most of that time. I was always impressed with his love and consideration for the earth and animals.

He and I attended countless technical meetings, mostly in Denver. At first we would switch off driving until one time, when I mistakenly turned down the off-ramp trying to get on I-25 in Thornton. I quickly stopped after his most strenuous protest. Thereafter he always drove (real fast) to those meetings, though I always offered. His desire to constantly learn more, was always appreciated and between the two of us we accomplished many joint projects.

We had a standing “date” on Thursday afternoons for the last couple of years. We would have pizza (large green olive) and beer at Krazy Karl's and then go by my house and solve the world's problems on my front porch.

I miss him a lot!
