

Megan Louise Baker

May 14, 2020

Megan Louise Baker passed away on May 14, 2020 at the age of 56 from cancer. She is survived by her husband, John Bender, stepson Leo Bender of Fort Collins; stepdaughter Erin Bender of Haleiwa, HI; parents Byron and Margery Baker of Fort Collins; sister Patressa Pojar and brother Geoff Baker both of Fort Collins; and sister Kirsten Baker of the Denver area.

She is a graduate of University of Colorado with a master's degree from Purdue University.

Megan was a student and teacher of history. She taught for 28 years at the junior high and high school levels. She was a published poet and for 15 years sang with Sound Circle of Boulder.

She spent her life seeking equal justice and rights for all. For 20 years she supported the Southern Poverty Law Center. Charitable donations in her name can be made at the center, splcenter.org.

Megan was a pollinator of kindness and love for all that she met. She will be sorely missed.

“ *Megan was such a blessing to me. I first met her at a teachers' conference in Illinois several years ago, and we kept in touch ever since. When I considered moving to Colorado to teach, she gave me great advice and suggestions. When I struggled with coming out, she was right by my side to encourage and support me. She was an incredible teacher--in so many areas of life--and such a very special person. She truly touched my heart and brought hope to my life. Megan will always have a special place in my heart and inspire me to be a light in this world just as she brought light to so many.*

“ *Megan was my teacher for seventh and eighth grade at Nova when it had just opened. She was one of our two primary teachers. I remember Megan helped me discover a love of math. I had struggled so hard in elementary school and thought I was just bad at math. At Nova I was able to jump ahead, eventually ended up in advanced math in high school and now I'm a Chief Financial Officer for a state agency.
Megan was the first teacher I remember who showed me how to be a strong woman. Such a critical lesson at that age. I'm so sorry to hear of her passing.*

“ Megan was a fierce advocate for her students and an empathetic educator to young minds. I was lucky enough to be her student for my entire high school career-- I took 9th grade History with her, and she was also my Mock Trial coach. I remember her warmth and passion for bringing out the best in young people. I am unquestionably a better person just from having known her.

Megan inspired me to grow from an angry, lost teenager into a leader. I will miss her, but I will never forget the impact she had on my life.

“ I met Megan for the first time at the DeMolay State Sweetheart dance (~1979). We hit it off splendidly -- I couldn't believe my luck at meeting such a charming young lady my age from my home town --, except to my surprise at the end of the evening when I found out she was the date of another DeMolay brother and couldn't accept a ride with the group I was with.

Going to different high schools (RMHS / FCHS), not having driver licenses, and a 9 pm telephone curfew hampered our "romance." First real date was to a DeMolay dance in Fort Collins in my family station wagon: my mom drove, Megan & me, my two sisters, Molly (from church / Job's), and Megan's two sisters.

Later, we attended CU at the same time and sometimes ran into each other, but her intellect, charm, grace, beauty, no-nonsense feminism [easily any man's equal or superior] elevated her as a worthy catch and made her forever the crush that got away.

I had lunch with her a couple years ago, and then last year learned of her health issues. She was on my mind to take to lunch again this very week when I saw the sad posting. Her spirit is in my prayers, and I resonate back the unconditional love she radiated.

“ *Megan was an incredible teacher and woman. I am so thankful to have had positive and enthusiastic educators like her as role models. She was compassionate and present for her students and cared deeply about social justice and personal growth. She made such a positive impact on me when I was at NOVA Middle School and is one of the reasons I chose to become a Middle School teacher. 💔 I will miss her spirit but she will live on in all the people who had the honor of knowing her.*

“Megan was a teacher of mine for many years both at Pioneer as well as at Poudre. She taught me what it meant to be passionate yet empathetic when dealing with strife. Her lessons and words have helped shape the man I am today, even leading to me picking Political Science as one of my majors alongside history as a minor. She has had a profound impact on so many students, but more importantly, she has had an immense impact on countless students lives. She will be forever missed as a teacher, a mother, and a friend.

“ RISE OG was such an experience, and the way in which we all bonded is in part due to Megan. The way she coached and guided us along our different journeys to understanding ourselves, and freeing us of various shackles that were holding us back from our true life purpose... she's a truly super special being. Very grateful to have met her in Santa Barbara and experience her wisdom and truth-seeking queries in person. She has influenced me in many ways and continues to do so.
Thank you for your time with me Megan, I look forward to meeting with you again some time and some place in the future.

“I only knew Megan in virtual form as she organized a leadership class in which I was a scholarshipped participant. Because I only knew her via email and social media, it's absolutely remarkable and speaks to her power that I felt seen and taken care of by her. “I grew to know Megan through the Mystic salons over the years. Her faithful presence to all of us sisters on the path, cheering us on through the rough patches of projects and our personal lives, always with sound advice and humor. She brought life to each conversation with us in the Mystics community and her absence is surely felt.... She is so very missed already. As a retired middle school educator/counselor, I thank her for her dedication to all the children whose lives she enriched by loving them. She had a calling to service and helping others and those who were enriched by the daily Resistance Live broadcast had no doubt she was instrumental "behind the scenes" to keeping it a smooth running operation. ECM constantly heaped praises upon Megan, and one could surmise the mutual respect, connection, and commitment they felt for the other. I never met Megan, but feel saddened to have lost a fellow comrade in the fight against injustice for our marginalized Americans. She will never know how many people she actually touched through activism, the work with the broadcasts, her work with children, and most importantly, her family. May her friends and family know she is mourned and loved throughout our world and we thank you for sharing her light with us all.

“Megan Baker is an angel. Through her wisdom, she taught all her students and friends how to look to our higher power to guide our actions in this world.

To her family, thank you for sharing her with us. She loved you all so much and shared with us her joy as daughter, sister, mother, wife. You filled her heart and she shared the love with everyone she encountered.

I knew her in many roles. My greatest gift was to share our Mystic Mastermind. Awe-filled magic moments appeared for us. Lucky me, she came to Los Angeles to spend three days together before our sisterhood retreat—we visited the hilltop Getty Museum to get a fresh coign of vantage; we dreamt together amidst the plant spirits and faeries in my garden Womb of Becoming; we shared discourse and drumming with my husband Eric who lent her his drum for the shamanic journey she led at our retreat. When she returned home she traveled (as shaman doula) via ethers to visit my 97 year old mother and told her that her own Mom, my grandmother, was ever present, tending to daily caregiving duties!

Meanwhile, she led the Gaia retreats on political action, supported my work to organize for domestic worker rights, and had boundless enthusiasm for all the stories of me youth as a labor organizer. She even followed and loved the twists and turns of my adventures as an architect—her creative energy was boundless.

I welcomed her as a Crone and planned to travel to Colorado for her Crone Celebration.

Celebration with Megan has no beginning and no end. Again, thank you to her family for your generosity in sharing her. I grieve for your and our loss. And I feel your joy in helping her release. May we all receive the peace she is bringing. 🙏

“ *Megan was a wise soul.*

On the day I heard she left her physical body, I was guided to lead a public meditation, where we sat with our grief, treated it as our most honored guest, and conversed with it. "Grief, what would you have me know? What are your lessons for me?"

Bringing her skills as an End Of Life Coach and shamanic practitioner, I believe Megan joined me that day, and whispered the words for me to speak out loud.

She healed us all.

Later, when walking in the sunshine, she visited again, and I felt absolute joy. I realised as she left her physical body, she was free to visit anyone, around the globe. What a beautiful vision!

Megan, you have had such a profound impact.

To her dear family, I cannot imagine your loss. Please know she was revered in our community.

“ Megan and I met through Elizabeth and RISE however we connected right away because she had learned that I was a mom to a special needs child. We had a few conversations on "social media" but we connected MOM heart to MOM heart. A few weeks ago she also tried to help me network with a few advocates for special education. I I prayed for her because she was special to me and she reflected the same back. Our friendship was instant and Soul connected. She knew I was thankful for her already. Here is what I prayed for her during her last days. The 7 day red candle I lit for her burned for 8 days.....Crone Blessing: May she be reminded of the unfurling braid of her own life, the sacred weaving, she tends to with care, the work she has done, and that is yet to come. In this braid may she hear, the whispers of a new story, the singing of her own song, where she's been, and where she's going, and may she remember, her own power, to pull the disparate threads of her life together, and to view them as one beautiful whole. May she walk in love, May she walk in beauty, May she walk with trust, May she walk with courage, MAY IT BE SO. By: Molly Remer

“ I am so so sad to know that Megan will no longer be with us.

I had the unbelievable pleasure of having Megan in a mastermind circle I was a part of with the Mystic Society and also to know her through her work with Gaia Women Lead. She had the most generous spirit and was a total champion of so many causes, but also of me and any cause I was trying to shine a light on.

She would spend time sharing her ideas and strategies for how to amplify my podcast episodes, campaigns and efforts. And always saw the true spirit behind what I was trying to do. She could really "see" me.

In the last few months, she had reached out to also ask for help and guidance. This was the last message she shared with me "My world and purpose have got simultaneously so small, self-focused & insular - as it should be - and my vision & visualizing large. Looking for ways to be connected to the EPIC life process..."

I love thinking that Megan's presence here is different but as she said "her vision and her visualizing" is larger than ever and her connection to the spirit and essence of life, EPIC in a new way.

Sending my condolences to all who loved Megan and had the honor of spending their lives alongside her.

“What a blessing to us all. Megan was one of the most open hearted, open minded, beautiful loving humans I’ve ever had the honor of knowing. She laughed easy. She pondered the big questions. She loved her people unquantifiable. So loyal. So magical. She impacted my life in countless little moments. “Megan had such a lovely singing voice. She seemed to enjoy music so much that her presence sang even when she wasn’t singing. The poem below reminded me of her bc she knew life is to be celebrated. She taught me the importance of being our true selves in a learning circle I was part of with her. Megan spoke so frequently of family. Of loving spending time with John in Hawaii. Of favourite times with her children, the ones that stood out for me were her love of sharing coffee on Mother’s Day or sharing music. Megan I will always remember you, your generous heart and your wisdom. My condolences to Megan’s entire family.

“ To Megan's family and especially her husband John, my sincerest condolences on the loss of dear Megan. She was very special to me, and we were members of several FaceBook groups together. Her voice was always welcome in the groups, and her words usually expanded whatever topic was on the table. Last June, I got to share a room with Megan on a spiritual retreat, and we had the most delightful time talking about our families and lives, long into the night. I made several pieces of jewelry for her, and I know that she wore them with pleasure, which makes me extremely happy. Megan has a place in my memories and in my heart, and I am already missing her a lot. Your family had a gem in dear Megan, but I know that you already know that. Sending love to all of you.

“ Megan has such a passion for so many things. For teaching, teaching others how to teach, for being an incredible human, and helping folk become better versions of themselves. She was magical.

Megan was the real deal. No matter what/where/why the circumstance, she was rock solid authentic. She carried wisdom, patience, poise and grace -- all the time remaining egoless and unconditionally supportive. Count me among the many privileged people who knew her. She was also my guide in navigating through new systems like Gaia and Mastermind -- life-transforming work that relied on her steady hand. Thank you to all those who helped her stay in her power throughout her life! Grateful to have known this wise soul!
