Pat was born December 5, 1935 to parents Harry and Nora Michaud Hehn in Fort Morgan, Colorado. He was one of seven children. He attended St. Joseph Catholic School until 1951, then went on to high school, graduating from Wellington High School in 1954.

In 1955, after farming for a year after graduation, Pat joined the Navy Sea Bees. On April 4, 1959, Pat married Elaine Wombacher and the two began their almost 60-year marriage.

Pat was a workaholic all his life. After returning home from his service in 1958, he and his uncle started Michaud Electric. Later, in 1986, he and his brother Tom formed H & H Electrical. Even after retiring at 75, Pat continued to do work, volunteering at church.

He was a loving man, conscientious in all he did. Pat brought joy to others, especially children, who were as fond of him as he was of them, always bringing a smile to the faces of his many grandchildren.

Uncle bbn Pat was a great man to all us kids. I got to do my first shooting of firearms with him and when it came time for me to start hunting he was there to offer a shotgun for me to use. I loved watching him fish the Poudre river wondering how he could even stand in the Rapids. Getting to work along side him was a pleasure and knowing that both my boys got to work with him was a blessing. Sorry to have missed out on so many other things we could have done together. You will be missed.

My Uncle Pat was such a wonderful man. He could always make me giggle with his antics! I remember as a young girl, he had a small plane and he would take us up in it and convince us we were in control hahah we were on the top of the world. Who lets an 8 year old fly a plane?!?! He would teach us how to make the plane to do nose dives and acrobats. Of course he had us convinced we were breaking all of the rules and we LOVED it. A good man with a huge heart. He will be missed. Sending Love and Prayers to Aunt Elaine.

I had the privilege of working for and along side Pat for a little over two years. We worked on a variety of different projects during that time beginning with The Worthington. It was a great time in my career and I owe a portion of my success to him. At H and H I was given the freedom to build projects and confidence in the electrical field. Pat was a great man, and I hold many fond memories of my time working for him. Rest in peace Pat, you will be missed.
