“ To my lovely Paul and Shirley : We have known each other for many years and whether we see each other everyday or a year goes by we hold a bond between us all that time does not take away the love we all have for each other. I promise first to Shirley that Garry and I will help watch over you and make sure you will be ok. It was a pleasure to be able to spend all the last month with you and Paul and get to go down memory lane with you about all the awesome times we have had together. Paul pretended to be my big brother at the birth of our son just so he could see us when the hospital would not allow visitors. I've always felt special to him for that. The hunting trips we all shared together was some of the best times we ever had. The stories we all hold in our memories are treasured. Paul was a good man and a better one with Shirley by his side. She has given him so much love and helped blend their families together for a lifetime. Paul you will be missed very much! you made me laugh so much I hope you are spending time with my dad and Frank fishing....We love you Barb & Garry Harner
