“ Phil worked for my company, Helicopters West, Inc. in Provo, Utah during the 1980's. I don't remember for how long, as our work was seasonal. He was an excellent pilot, very safe, and our customers always requested him as pilot if available. We lost touch, and a few years ago he contacted my family to see if he could get in touch. Unfortunately, I waited too long to contact him back, and just last week as I was looking him up, I found this obituary. I felt a great deal of sadness to find out that he had passed on, but I know that we will meet again which I am looking forward to! I feel so fortunate to have known and worked with Phil all those years ago. I offer my best wishes to his family.

“ Phil and I did so much...starting in our toddler years and continuing through our entire lives. Even with his work keeping him traveling constantly...we always kept in touch, and visited each other as often as our schedules allowed. Born as cousins...our bond was that of twin brothers. Phil has been a rock for me all my life...and I will always see him as the biggest man I've ever known. I Love You Phil ...see you down the road.

I had the great honor of flying with him, my first rescue was with Phil in the Sierra de Rayones, Nuevo León, Mexico, a great human being, I will always miss him that my heavenly father receives him in his arms.

“ Knowing you are no longer in Pain and having a True West Virginia Party with the family that has awaited your return to heaven to join them, eases the loss some but the void of not being able to just pick up the phone and call you every week, hurts. Hanging out with you and Christie almost every weekend, eating Cookie dough, laughing, feeling like it was my second home for almost 20 yrs, is a memory I will treasure always! Love you more💕💕
