“ *Rick was my Son-In-Law married to my daughter for 27 years but because of his dementia he didn't know that for the last two years. Rick was very smart when it came to the medical field he could answer your questions you ask him most of the time. I told him one time he should have been a doctor. I used to get tickled at him he would tell a joke and he would laugh at his own jokes. He loved to read and has collected quite a library. He kept there homes looking nice with the mowing and such. He will be greatly missed. May you Rest In Peace Rick and hope you are better now. Love , Karen (Mom)*

“ *Tina and family: I am so deeply sorry for the loss of your wonderful husband and father...He was one of the greatest teachers I ever observed in the lab and did such a good job with our students....one of the best clinical science minds I had the good luck of knowing. So glad that he is not suffering anymore. I pray for the strength you will continue to have going forward..... Gail and LYNN DUNFORD*
