“ I was truly blessed to have known Rosalie Mylott and to have been welcomed into the extraordinary family that she made. I came to know the Mylotts thirty years ago - I can't believe it's been that long - and I was immediately overwhelmed by the sheer love and humor and energy of their family. Within the chaos that could be a Mylott adventure, Rosalie was the steady heart of every gathering. Her quiet gentleness sometimes hid the truth – which was that she was just as wickedly funny and brilliantly crazy as every other member of the family. In each of her children, I can see the reflection of her enormous heart, faith in a loving universe, and gentle concern for everyone she welcomed into her life. She also leaves a legacy of fierce strength, having forged a family so tightly bound that they will never be left alone to face pain and grief. No matter what life throws at them, they will always, always have each other. I can't think of a greater gift to give someone. I will miss her very much, as will everyone who had the privilege of knowing her, and I hope that her grandchildren will grow up to instill the same fierce love in their families for many years to come.

“*Rosalie Mylott was my godmother and I am so deeply sad she is gone. Aunt Rosalie was the person who first called my baby daughter, “Punkin” and the nickname stuck.*

Some of my favorite memories are from the Colorado visit with my then toddler, Elise, almost 23 years ago. We watched Finding Nemo while Elise sat between my Aunt Rosalie and Uncle Richard. Aunt Rosalie sat on the floor coloring, playing games and having fun with her great-niece. I knew what an amazing grandmother she would be when the time came. I do not think I was incorrect in that assumption. Much older joyful memories include dancing at weddings, holiday gatherings, listening to my father Jack’s band and to Pop play the accordion. My heart goes out to everyone who loved my Aunt Rosalie. I hope her spirit finds her beloved sister, Elvis concerts and polka parties.

Aunt Rosalie was one of a kind. I have so many great memories with her from our childhood to Thanksgivings in Little Silver to her getting to know my boys and hearing how much she loved all her grand children. She and I share the shopping bug and I always think of her when watching Dancing with the Stars .

She always had a gentle, sweet and caring way about her . I loved seeing her with our Mom, her sister, Carol .

They almost turned into two little girls laughing and enjoying each other’s company.

It makes me very sad that she is gone , but I take great comfort in knowing she is with our Mom and her brother Uncle Jack, Uncle Rich and Mom and Pop.

Love and prayers to all the family left behind . I know how much she loved all of you.

Aunt Rosalie , I love you forever .

“ My mom was an amazing and kind soul and I have been flooded with memories of how much I learned about being a good, loving human from her throughout the years. I remember her silly spontaneous songs, her mischievous laugh, her quick-witted quips, and her sending me home with as many items to share as my arms would hold. Her impact on me is immeasurable and I plan to share all the amazing life-lessons from Momma Mylott with my daughter, Luna. It feels like a huge part of my soul left this realm a few weeks ago. I am sending you love and well-wishes of peace, family and connection to you Momma in your heavenly realm.
