“ Russell and I were classmates and didn't see each other often, but he was the kind of friend you could just pick where you left off! He had so many gifts to share and was enjoying doing the videos for “Hawley Then and Now.” He even talked about needing to finish the one he was working on days before he passed! The one he and Jeff and many others made of our mom is priceless and we will always be grateful to him for that! I will miss our chats Russell, but we will just catch up where we left off when I see you again 😊

“ Russ has been a good friend for over 25 years. He will be missed. We worked together at Merix, his own business, ESC and Frontier. Seen many Rockies games together and often came to CSU football games with me. His passion for technology was a shared interest which he never stopped. He never stopped learning or teaching himself about new tech in the world. He will be missed. Goodbye old friend. Jim Tatman

“ The Ford family will forever be thankful for mom's video. The time Russ put in finding the right ship that John Ford traveled on showed his personality. He persevered until he got the information. He is gone too soon, and will be missed.
