

Theodore "Chip" Webb

May 1, 2023

Fort Collins, Colorado - Theodore S. Webb III, affectionately known as Chip, passed away after an extended illness at the age of 66 on May 1, 2023, in Fort Collins, Colorado. He was born on September 26th, 1956, in Fort Worth, Texas, to Ted and Cuba Webb.

Chip had a brilliant mind and was an accomplished individual. As a National Merit Scholar, he excelled academically throughout his life. He earned a bachelor's degree in computer science from the Michigan State University Lyman Briggs STEM Program, laying the foundation for his successful career as a software engineer. Chip dedicated 20 years of his professional life to Dell, where his contributions were highly regarded, including multiple patents.

Beyond his professional endeavors, Chip had an adventurous spirit and an inquisitive outlook on life. He filled countless notebooks with mathematical equations in his spare time, just as his father had, and was a master at building computers and making puns. He loved playing sports and found solace and joy in the great outdoors, often embarking on camping trips with his family.

Family was paramount to Chip, and he cherished the time he spent with his loved ones. From coaching his daughters' volleyball teams to playful afternoons at the neighborhood park, swimming, and hiking, he always

prioritized creating lasting memories. Together, Chip and Martha created a loving home and built a beautiful family.

Chip is survived by Martha and their adoring daughters, Caroline, Laurel, and Juliana Webb. He is also survived by his beloved mother, Cuba Webb, and his caring sister, Kelly Hulme (Thom) and niece, Marin. He was predeceased by his father Ted Webb.

In honor of Chip's love for the outdoors, the family suggests that donations be made to the World Wildlife Fund or any outdoor related non-profit organization. Your support will help preserve the natural beauty that brought him so much joy.

Chip Webb's warm smile, gentle spirit, and unwavering love for his family and the world around him will be dearly missed. May his adventurous soul rest in peace. We miss you, Cheepaw.

“ *Knew Chip from MSU. He always came across as a very nice guy! Spent couple years knowing him at Michigan State living on 1 High East at Holmes Hall. He let me use his Dodge Aspen when I blew out my knee freshmen year! I believed he anchored the road trip back from Texas to bring us all Coors beer! Sorry I did not get a chance to share both our love for great Colorado outdoors! Thoughts and prayers to family and friends!*

“ Chip’s curiosity and inquisitive nature was something we all saw at Michigan State! I would walk into our suite bathroom, and find all of the parts of his bike soaking in soapy water as he took the entire bike apart and put it back together. Or, I would hear rhythmic clicking and walk into his room to find him hitting a ping pong ball (that he had painted a stripe around) off his wall just to observe how spin affected flight. Or when he told me in his class on evolution that they were observing fruit flies for features of Clydesdale horses, and selecting those most like Clydesdales, hoping to evolve them in a few weeks.... Chip was an amazing person who will be missed by all of us. We will raise a glass (or two or three) to him when we meet in East Lansing this September! From Kevin Doyle, MSU Class of 1980
